Greek for you

Bilingual series for learning Modern Greek as a foreign language for adolescents and adults

The **smart way** to learn Modern Greek

- **Greek for you** is aimed at everyone who is learning Greek as a foreign / second language aged 12 years and above and lives in Greece or abroad.
- The series **Greek for you** conforms to the Common European Framework of Reference for Languages (CEFR) and the requirements set by the Centre of the Greek Language for the Greek Language Certification (Ellinomatheia).
- When designing this course material we combined various teaching strategies; the communicative is the prevailing one.
- The bilingualism of the material supports language acquisition and saves time both the teacher and the student.

It has to be clear that the bilingual presentation of the series does not require bilingual teaching on behalf of the teacher, but is an essential aid, especially in a multicultural environment.
